

To whom it may concern

I write this letter in support of Seating Solutions, and more specifically, Chandler Suprina.

Chandler exemplified incredible dedication to the Pittsburgh Riverhounds stadium project, dating back to 2008 when initial, base-level discussions commenced. At that time, Chandler was one of the first individuals to show keen interest in the project, lending his support and creative expertise in determining a variety of options for the project. His support was not only in seating structures, but in total project design and management.

Over the years, leading up to our Club's ultimate decision to contract the services of Seating Solutions, Chandler was involved every step of the way. I personally appreciated his energy and immediate availability to respond to any and all concerns. Beyond the great credibility of Seating Solutions, and the breadth of their offerings, these intangibles truly guided our decision to select Chandler, and Seating Solutions, for the seating needs of Highmark Stadium.

I am available to provide additional insight on our relationship with Chandler and Seating Solutions, and endorse Seating Solutions for your stadium seating needs.
