

Starfire Stadium in Tukwila, Washington serves as Sounders FC's training facility and host venue for Lamar Hunt U.S. Open Cup matches, where the First Team has not lost an Open Cup match at home in six seasons.

Upon launching our second team, Sounders FC 2, we sought to make some upgrades to Starfire Stadium to improve the comfort for our new Season Ticket Members and enhance the overall look and feel of the facility. The first place we called was Seating Solutions. Chandler Suprina was extremely helpful and attentive in arranging us with the correct fit for our bleachers (the BleaChair XL), finalizing our measurements and even replicating our unique color scheme.

The final product has been extremely popular with our Season Ticket Members and has served as a major improvement for all Starfire Stadium patrons. We would certainly recommend Chandler and Seating Solutions for an easy way to improve the look and feel of your facility.
